

RKDOORSYSTEMS

Let's make an entrance

RK ECO RANGE

Model shown: RK 300T in RAL 7016 Anthracite Grey with optional sidelights and 1 meter long bar handle.

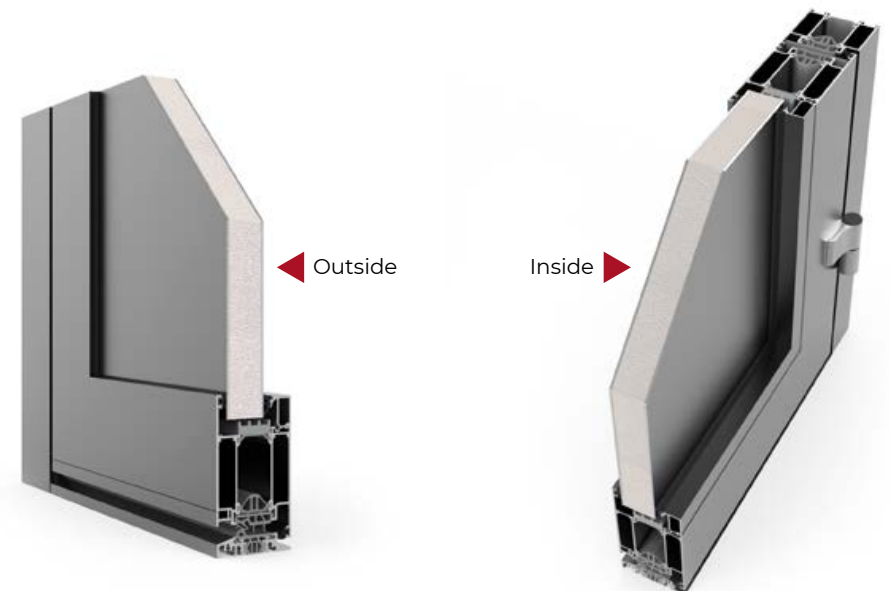

The RK Eco Range

Market leading specification and performance

Our Aluminium entrance doors are renowned for their high performance and specification, with PAS24:2016 Certification and Secured By Design accreditation as standard.

Our new Eco range offers the same quality and standards as our other ranges and has a 65mm deep profile with a 33mm thick centre panel. This door system offers an affordable high performance entrance solution for both modern and traditional residential and light commercial applications.

Matching sidelights in a single frame construction. See back page for standard specification details. Choice of accessory & hinge upgrades available – details on request.
